HEALTHCARE OPERATIONS · INTEGRATED CARE · CLINICAL AI

Healthcare executive and licensed psychologist with more than 20 years of behavioral-health experience and progressive leadership in integrated care, organizational transformation, clinical quality, and technology implementation. Executive experience within an organization of approximately 120 employees and $12M+ in annual revenue. Connects clinical judgment with workforce planning, financial analysis, and practical tools that help teams deliver care.

Selected results

• Operational efficiency: Reduced weekly financial-report preparation from six staff-hours to approximately 30 minutes through AI-assisted Excel VBA across two EHR reporting streams.

• Integrated care transformation: Coordinated clinical, administrative, quality, and governance changes supporting NCQA CCBHC accreditation in January 2026 and HRSA Health Center Look-Alike designation effective April 1, 2026.

• Hospital patient flow: Helped standardize behavioral-health disposition tracking and reassessment at WakeMed; contributed to strategies associated with a sustained reduction in boarded/admitted patients from approximately 80–100 to 20–40 across campuses.

• Care-management operations: Redesigned workflows supporting approximately 3,000 assigned members, five supervisors, and 25 care managers and extenders.

Professional experience

B & D Integrated Health Services · Durham and Wake Forest, NC

Executive Leadership | January 2023–September 2026

Chief Clinical Officer, Jan 2023–Feb 10, 2026; Interim Executive Director/CEO, Feb 10–Jun 23, 2026; CEO, Jun 23–Jul 28, 2026; Chief Operating Officer, Jul 28–Sep 2026.
Concurrent roles: CEO, BDIHS East, Sep 2024–Feb 10, 2026; Health Center Project Director, Feb–Sep 2026.

• Led multidisciplinary clinical and operational transformation across behavioral health, primary care, care management, quality, compliance, and practice operations.

• Aligned directors, managers, and medical leaders around clinical standards, staffing, budgets, and implementation priorities; connected program decisions with executive and board reporting.

• Built workforce and financial models incorporating referrals, reimbursement, clinical hours, documentation, PTO, vacancies, no-shows, and overhead to guide hiring and staff allocation.

Executive leadership continued

B & D Integrated Health Services | 2023–2026

• Led CCBHC and HRSA health-center implementation and regulator communication. Supported monthly reporting for the multimillion-dollar CCBHC grant authored in 2022; secured CCNC funding for a Collaborative Care Management program in 2025.
• Guided program directors in implementing Greenspace measurement-based care for progress monitoring and service-intensity decisions. Implemented primary-care PHQ-9 and GAD-7 workflows and supported coordinated screening across disciplines.
• Built Monday.com workflows linking member assignments, acuity-based outreach, care plans, care gaps, medication reconciliation, productivity, and capacity. Trained directors and supervisors to use performance information in daily oversight and hiring decisions.
• Developed Hatz AI agents supporting assessment, treatment-plan, and progress-note review against organizational standards and evidence-based practices. Piloted tools, gathered user feedback, maintained an improvement backlog, and tested revisions before broader adoption.
• Coordinated AI vendor evaluation, onboarding, training, contract expansion, and recurring implementation meetings. Worked with Monday.com consultants on complex CRM workspaces.
• Automated financial reporting and standardized payer and service categories. Identified duplicate billing rows and rebilling across reporting periods; developed scripts to improve reporting reliability.
• Used PDSA cycles, complaints, satisfaction surveys, and documentation reviews to guide improvement. Introduced root-cause analysis practices and oversaw serious-event reviews and corrective action plans.
• Managed approximately 10 concurrent vendor, consultant, and partner relationships, with annual contracts ranging from $50,000 to $300,000; responsibilities included selection, scopes, negotiation, monitoring, and selected closeouts.

Hospital partnership and remote clinical leadership

TelePsych Supports · Raleigh, NC

Clinical Director | August 2017–December 2022
WakeMed hospital partnership leadership | November 2017–December 2022
• Directed doctoral psychology services supporting 24/7 coverage and remote clinician management. Met weekly with psychiatry leaders and quarterly with hospital executives on staffing, quality, coverage expansion, and patient-flow barriers.
• Helped standardize disposition categories and reassessment processes across campuses. Partnered with WakeMed's Epic team in 2021–2022 to improve tracking and follow-up.
• Supported daily COVID-era hospital huddles with information to identify and resolve unnecessary bed days. Collaborated with psychiatry, nursing, case management, emergency providers, and hospitalists; participated in root-cause analyses and medical peer review.
• Provided suicide-risk assessment, brief motivational interviewing and CBT interventions, and consultation on least-restrictive care.

Earlier clinical and operational leadership

B & D Integrated Health Services · Durham, NC

Clinical Director | January 2013–September 2017
Clinical Consultant | September 2017–December 2022

• Supervised program directors across assertive community treatment, intensive in-home services, substance-use intensive outpatient services, community support, outpatient therapy, psychiatry, and opioid treatment.

• Led CCNC Practice Transformation Network participation and launched integrated primary care in 2016; presented practice-transformation approaches to professional and community audiences.

• Implemented assertive community treatment to fidelity; adapted Illness Management and Recovery for community support, TF-CBT for multidisciplinary in-home delivery, and MATRIX with contingency management for substance-use intensive outpatient services.

• Supported implementation through observation, documentation review, role-play, case presentations, supervision, and refresher training.

• Developed risk-stratification models to guide service frequency and intensity. Led the 2014 EHR implementation and collaborated with AlphaFlex on clinical workflows and ongoing optimization.

ValueOptions · Morrisville, NC

Peer Advisor, Appeals Team | May 2010–January 2013

• Conducted second-level Medicaid utilization reviews for mental health, substance-use, and developmental disability services.

• Provided expert testimony in administrative appeals, consultation for mediations and settlements, and staff education on clinical review and appropriate levels of care.

B and D Behavioral Health Services · Durham, NC

Progressive Clinical Roles | November 2005–April 2010

Clinical Director, Jul 2008–Apr 2010; Assistant Clinical Director, Aug 2007–Jul 2008; Doctoral Intern, Aug 2006–Jul 2007; Intake Coordinator, Nov 2005–Aug 2006.

• Developed referral, intake, person-centered planning, and service-initiation processes; completed the first 800 intake assessments and trained subsequent assessors.

• Oversaw clinical quality, supervision, treatment protocols, and education in CBT, motivational interviewing, and evidence-based care. Worked with CaseHandler to inform EHR clinical workflows.

Additional clinical experience

R3 Continuum | Licensed Psychologist, Independent Contractor | June 2017–January 2022. Clinical file reviews supporting absence management, workers' compensation, and return-to-work programs.

TelePsych Supports / WakeBrook | Clinical Psychologist, Independent Contractor | Began April 2012; concurrent clinical work. Crisis assessment, brief intervention, and interdisciplinary consultation; UNC Psychiatry Allied Health Professional appointment beginning February 2013.

Research and workforce development

Governor's Institute on Alcohol and Substance Abuse · Research Triangle Park, NC

NIDA Clinical Trials Network Research Coordinator / Assistant | Jan 2004–Oct 2005

Coordinated outpatient substance-use research, participant recruitment and interviewing, data submission, and NIDA meetings; served as project coordinator for the Safer Sex study.

Project Coordination and Research Roles | October 1996–September 2002

Coordinated North Carolina activities for the Mid-Atlantic Addiction Technology Transfer Center. Participated in state and federal meetings; assisted with scopes, budgets, and procurement for academic subcontracts. Supported workforce curriculum development, research, evaluation, and dissemination.

Northwestern University, Department of Psychology · Evanston, IL

Laboratory Coordinator | September 2002–June 2003

Coordinated laboratory operations, research documents, IRB submissions, consent forms, grant budgets, and reporting; supervised work-study students.
